Summary

I am a results-driven and detail-oriented Computer Networks and Cybersecurity graduate from Strathmore University, with hands-on experience in IT infrastructure, network setup, cybersecurity, and full-stack application development. Through internships at Naya Solutions Limited and Christ is the Answer Ministries (CITAM), I gained practical expertise in system installation, network management, user support, and software development.

I have successfully designed and developed secure, scalable system solutions including an Asset Management Android Application integrating barcode and QR code scanning with a Firebase backend for real-time asset tracking. In addition, I have completed multiple Cisco and AWS training programs, building a strong foundation in cybersecurity, cloud computing, and network security.

Driven by curiosity and a commitment to growth, I am passionate about leveraging technology to enhance organizational efficiency, promote innovation, and deliver reliable, secure digital solutions.

Educational Background

2021 - 2025	Strathmore University Bachelor of Science in Computer Networks and Cyber Security Graduated with Second Class Honours Upper Division
2017 – 2020	St. Anthony’s Boys High School High School level of the 8.4.4 system - Grade: B
2009 - 2016	Mount Elgon Academy Primary School level of the 8.4.4 system - Grade: B+

Experience

IT Intern	January 2024 – March 2024
<i>Naya Solutions Limited, Nairobi, Kenya</i>	
• Installed, configured, and troubleshoot networking equipment for clients, including routers and enterprise Wi-Fi systems. • Gained experience in structured cabling, network configurations, and IT support. • Worked across departments managing networks, servers, and client support. • Strengthened troubleshooting skills and enhanced customer service through direct client engagement.	

- Improved workflow efficiency by managing tasks in a ticket-based system and adhering to safety standards.

ICT Intern

June 2025 – September 2025

Christ is the Answer Ministries (CITAM)

- Assisted in the setup and configuration of computer networks and printers.
- Gained hands-on experience with Trend Micro, including report generation and endpoint monitoring.
- Configured and maintained the organization's helpdesk monitoring system.
- Supported device onboarding by joining employee computers to the organization's domain.
- Participated in office phone configuration and troubleshooting.
- Provided technical support to staff across various departments.
- Performed regular computer maintenance and system checks organization wide.

Achievements

- President's Award Bronze Certificate
- First Aid Participation Certificate
- President's Award Silver Certificate

Skills

Technical Skills

- Network Configuration & Administration
- Cybersecurity & Threat Analysis
- Python Scripting
- Web & Software Development
- Firebase Integration
- System Installation & Maintenance
- Helpdesk Support

Soft Skills

- Analytical Thinking
- Problem Solving
- Time Management
- Teamwork & Collaboration
- Communication Skills
- Attention to Detail

Creative and Digital Skills

- Graphic Design
- UI/UX Awareness

Projects

Full Stack Application Development

January 2025 – May 2025

Title: *Asset Management Application*

Developed a full-stack Android application to streamline organizational asset management. The system integrates barcode and QR code scanning for asset tracking and utilizes Firebase for backend services, including authentication, real-time database management, and cloud storage.

Computer Networks and Security (CNS) Project 2

April 2024 – Nov 2024

Title: *Web Based Dynamic Malware Detection System*

The project's aim was to come up with a web application that can detect malware in executable files

Computer Networks and Security (CNS) Project 1

April 2023 – July 2023

Title: *Uncovering Stealthy Threats: Convolutional Neural Networks for Steganalysis*

The project's aim was to develop a system utilizing convolutional neural networks for detecting malware concealed by steganography

Other Courses

- Introduction to Cybersecurity (Cisco)
- AWS Academy Cloud Foundations
- IT Essentials (Cisco)
- Network Security (Cisco)
- Python Essentials (Cisco)
- Fortinet Certified Associate Cybersecurity
- CCNA: Introduction to Networks
- CCNA: Switching, Routing and Wireless Essentials

Volunteering

Christ is the Answer Ministry (CITAM) Valley Road

January 2023 – April 2023

Hobbies and Interests

- Technology & IT: Exploring emerging tech and learning new programming languages.
- Fitness & Sports: Running and team sports.
- Creative Arts: Graphic design and singing.
- Community Engagement: Volunteering, and mentorship.
- Travel & Culture: Exploring new places and cooking.
